

THE LATEST NEWS FROM
THE WORLD OF PUMPS.

The Online Pump Magazine with the Global PumpSelector

Impeller.net provides the world's community of pump professionals with the latest news from industry and science. Pump buyers from all over the world have the possibility to inform about technical trends and to select and configure the appropriate pump on the same platform.

Pump Magazine

- > Daily updated news around the fluid handling industry
- > More than 100.000 readers per month
- > Distribution of the news in a weekly newsletter (free of charge)

Global PumpSelector

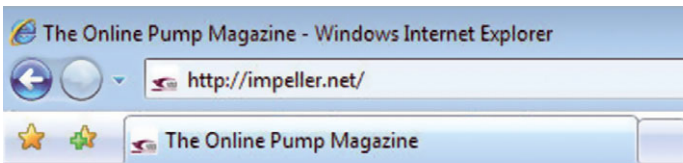

A high number of pump manufacturers have included their pump data to the Global PumpSelector. Make a pre-decision of the appropriate pump based on this integrated data and directly send a request to the particular manufacturer.

Virtual Exhibition

Information about pump manufacturers and product innovations in the Virtual Exhibition.

Encyclopedia

Important terms of the fluid handling industry on one page.
