PRESS RELEASE

VSX – VOGEL SOFTWARE INVITES TO JOIN THE 3. SPAIX USER CONFERENCE IN DRESDEN

Dresden/Germany, 8 December 2016. In the coming year, the third Spaix User Conference will take place in Dresden. The conference focuses on the exchange of experiences, between the participants and the VSX staff, concerning the Spaix software solutions and the pump sales optimization. The introduction of the new version 5 of the pump selection software Spaix is another highlight in 2017.

The symposium will be held on 6 April 2017 and will provide a balanced mix of user reports and lectures on new program features. From among the Spaix users, VSX was able to win Ms. Dorle Weigang from Richter Chemie-Technik GmbH as well as Ms. Elena Yudovina from Piping Systems Research and Engineering Co, based in Russia, as speakers. Ms. Weigang is focusing on the use of Spaix as a technical data source for the improvement of the overall quotation and order management for the company's engineered products. Ms. Yudovina is presenting a detailed experience report of the integration of Spaix with the piping fluid flow analysis software Hydrosystem, with the focus on the interaction of both systems and the resulting advantages.

The event is again rounded-off by practice-oriented sessions, which are held by members of the VSX support team. Participants have the opportunity to work with the program parallel to the introduced topics. Incoming questions and solution approaches can be discussed directly with the speakers in the various courses.

The one-day conference is mainly addressed to manufacturers of centrifugal pumps and users within the fluid handling industry, the chemical industry as well as the process and plant engineering industry. The presentations content is designed for executives and specialized engineers, product management and sales and marketing employees. The conference offers informative impulses for Spaix users and prospective customers.

During the event all participants have the possibility to get in contact with software developers, specialists of the data team as well as with the VSX management in order to discuss current questions directly. The event concentrates likewise on the dialogue between the participants, focusing on the different experiences when working with Spaix.

The Spaix User Conference takes place on 6 April 2017 at Elbflorenz Dresden Hotel, Dresden, Germany. On the evening before, VSX has organized a cruise with a ship on the river Elbe. Everyone interested can visit www.spaixuserconference.net for more information and register via [online registration form](#).

VSX – VOGEL SOFTWARE develops applications for sizing, selection, configuration and sales of pumps and engineered products in the fluid handling industries combined with solutions for business process automation. The software solutions substitute conventional product catalogues and thus simplify the sales processes of producers as well as users. Moreover, the software users profit from additional applications like the technical calculation, complex product configurations as well as offers and technical documents producible directly in the system.

VSX – VOGEL SOFTWARE was founded in 1993 by the brothers Hanns-Henrik and Jens-Uwe Vogel and since this time the firm grows continuously. Due to the intensive international orientation, the company generates 65% of its turnover outside of the domestic market Germany.
